Experience

Full Stack Software Engineer • Andela

09/2019 - Present

Kigali, Kigali City

- Worked in a team of 5 where we able to collaborate and come with a full product called Barefoot Nomad.
- I also worked as DevOps on the team where I was able to deploy the product on Heroku so as to have continuous deployment; and also did continuous integration with Travis
- Maintained a satisfactory rating during the period of working on the product

OSS Maintainer • Gatsbyjs

12/2019 - Present

- I was able to work on 2 bugs on the Gatsbyjs open-source and raise pull requests which were merged
- I also refactored the Gatsby documentation for a better understanding of the users.
- I created a blog starter for gatsby which is being utilized by Gatsbyjs users.

Education

Gretsa Universtiy • BSc. Computer Science

Thika, Kiambu County

- Currently completing courses in computer science
